

MEMORANDUM FOR: Deputy Director of Central Intelligence

Executive Registry

76-322612

Halt -

Herewith another copy of the unclassified memorandum that I gave to Carter and Mondale at our last session. I have not been able to determine whether Carter has actually read it. He may not have, but if he announces in the course of the briefing that he has studied it we ought to be prepared to shift gears quickly into the meatier subjects that it does not address.
